Federal Energy Regulatory Commission

Docket No. CP14-543-000

Notice of Availability of the Environmental Assessment for the Proposed Jackson Prairie Storage Facility Project; Puget Sound Energy, Inc.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Jackson Prairie Storage Facility Project proposed by Puget Sound Energy, Inc. (Puget Energy) in the above-referenced docket. Puget Energy requests authorization to construct, operate, and abandon certain facilities at its existing Jackson Prairie Storage Facility in Lewis County, Washington.

The EA assesses the potential environmental effects of the construction and operation of the Jackson Prairie Storage Facility Project in accordance with the requirements of the National Environmental Policy Act. The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The proposed project includes the following activities:

- permanently plug and abandon four gas wells (Well Nos. 1, 11, 31, and 47) that have not been used in several years and may contribute to cushion gas migration from the principal storage zone (Zone 2) of the Jackson Prairie Storage Facility into the gas recapture zone (Zone 1);
- renew the authorization to convert an observation well (Well No. 52) to a gas recycle well in Zone 1 and to build approximately 500 feet of 3-inch-diameter natural gas pipeline to tie Well No. 52 into a gathering pipeline; and
- drill a new water withdrawal well (Well No. 91) and construct related facilities to continue normal maintenance water withdrawal.

The FERC staff mailed copies of the EA to federal, state, and local government representatives and agencies; elected officials; Native American tribes; potentially affected landowners and other interested individuals and groups; newspapers and libraries in the project area; and parties to this proceeding. In addition, the EA is available for public viewing on the FERC's website ([www.ferc.gov](http://www.ferc.gov)) using the eLibrary link. A limited number of copies of the EA are available for distribution and public inspection at:

Any person wishing to comment on the EA may do so. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that the Commission has the opportunity to consider your comments prior to making its decision on this project, it is important that we receive your comments in Washington, DC **on or before February 2, 2015**.

For your convenience, there are three methods you can use to file your comments with the Commission. In all instances please reference the project docket number (CP14-543-000) with your submission. The Commission encourages electronic filing of comments and has expert staff available to assist you at 202-502-8258 or [efiling@ferc.gov](mailto:efiling@ferc.gov).

- (1) You can file your comments electronically using the [eComment](#) feature on the Commission's website ([www.ferc.gov](http://www.ferc.gov)) under the link to [Documents and Filings](#). This is an easy method for submitting brief, text-only comments on a project;

- (2) You can also file your comments electronically using the [eFiling](#) feature on the Commission's website ([www.ferc.gov](http://www.ferc.gov)) under the link to [Documents and Filings](#). With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on “[eRegister](#).” You must select the type of filing you are making. If you are filing a comment on a particular project, please select “Comment on a Filing”; or
